AGNID

WORLD 1ST PANCH MAHA TATVA PURIFIER

AGNID Gauvantri Chikitsam has been proposed as an alternate prophylactic and therapeutic approach for safeguarding human health. Panchgavya products have been found to be beneficial in curing several human ailments and enhance the body's immunity and resistance to fight various infections. Gauvantri Chikitsam induces immunomodulation by enhancing cellular and humoral immune responses, upregulates the lymphocyte proliferation activity, secretion of cytokines and macrophage activity; reduces apoptosis in lymphocytes thus helping them to survive and fight infection; acts as anti-aging factor by preventing the free radicals formation and efficiently repairing the damaged DNA. Also, immunity is reducing drastically as a result of the environmental pollution, use of agrochemicals in agriculture and presence of pesticides, heavy metals, fungal toxins etc. in the food chain, in this scenario AGNID Gauvantri Chikitsam is a good alternative.
